

# PADLET: PARTICIPANT REACTIONS

Faculty, Staff, Students

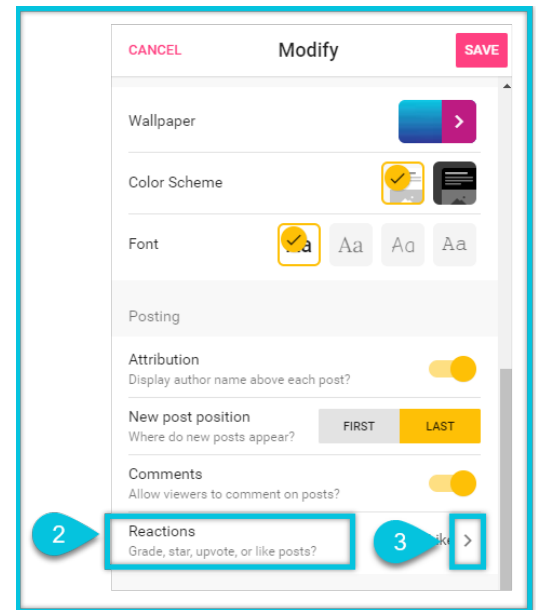

You can decide if you'd like to allow participants to react to comments that are posted using a variety of methods. Note, however, changing the reaction type deletes all previous reactions.

## SETTING PARTICIPANT REACTIONS

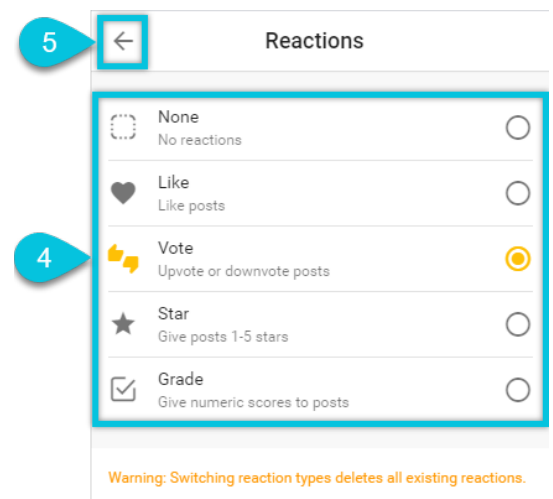

1. SELECT **Settings icon**.  
SCROLL **down**.

2. SELECT **Reactions**.
3. SELECT the menu **expansion icon**.

4. SELECT the appropriate **Reaction type**.
5. SELECT the **back button** to return to the settings.  
Changing the reaction type will delete all previous reactions.

6. SELECT **Save** to save the setting.
