

Setting Up PollEverywhere in Canvas

Faculty

CREATE POLL EVERYWHERE LINK IN CANVAS

1. In the Course menu, click **Modules**.
2. Click the **+ Module** button at the top right.
3. Name the module **Polling** in the popup window and click the **Add Module** button. (Do not publish this module – students do not need to access it)
4. At the far right of the new module, click the **+** button.

Add Item to Polling

Add External Tool to Polling

Select a tool from the list below, or enter a URL for an external tool you already know is configured with Basic LTI to add a link to it to this module.

- Panopto Video
- Pearson MyLab and Mastering
- PollEverywhere** (LTI 1.3)
- Quizzes 2
- SoftChalk
- TidyUp File Cleanup
- Turnitin
- Turnitin Framework

URL:

Page Name:

Load in a new tab

Indentation:

5. From the dropdown menu at the top of the pop-up window, select **External Tool** and then select **Poll Everywhere**. The URL and Page Name fields (at the bottom of the pop-up window) will auto-populate.

6. Check the box next to **Load in a New Tab** and click the **Add Item** button on the bottom right. (Do not publish this link – students do not need to access it.)

IMPORT COURSE ROSTER

1. Click on the new **Poll Everywhere** link within the module.
2. Click the **Load Poll Everywhere in a new window** button to launch the Poll Everywhere connection.
3. Click **Continue to acphs.instructure.com**.
4. Click the **Import Roster** button. A message will appear, stating that the import is proceeding.
5. Click the **Go to Participants** page button. Once on the Participants page, you will be able to verify the roster import has begun, as there will be a new group named after your course in the upper right corner.
